

## *That's Entertainment!*

The substantial scale and sensual curves make the dramatic statement of Lyndhurst. Our home theater system has a gracefully curved design and intricately carved accents creating a feeling of pure luxe. Sweeping molded crown and fluted columns complete the story. Constructed of poplar hardwood solids and primavera, cherry, walnut and birch veneers. Configure the system as large or small as you wish from consoles, pier designs, bridges, shelves and back panels in two popular sizes.
